

Valuation Reports Template

1. *IBSSP Rating is designed to reflect the economic performance of these companies.
 - based on predefined criteria; incorporating quantitative and/or qualitative factors.
2. Intrinsic value (*IV) is considered the theoretically correct value of a company.
3. Time Factor is measuring the interval between cycles of investment materialization.
 - we expect the stock price to reach its intrinsic value within the *Cycle (in months).
4. Nominal rate of return (*Nror) shows if a company is overvalued or undervalued.
5. *MoS - margin of safety (downside-risk buffer)
6. *MoV - margin of value (pricing gap indicator)
7. MoS & MoV states; e.g.:
 - Maximal: common in banking and new business
 - Optimal: common in balanced financial business
 - Minimal: common in innovation and new business
